

CARIBBEAN

Being a member in good standing at the American Automobile Association (AAA) provides us with a constant motel discount; additionally they have travel information up the gazillerator. The brochures for cruises of the Caribbean were of a great benefit as is quite apparent having never memorized the islands. If you are determined to drag your clubs aboard be sure your itinerary allows for sufficient time for a taxi ride as well as the round of golf. Don't want to imagine what happens when you miss the boat. You've seen one island you seen'em all! Do your homework as regards where the ship actually puts in and your course just happens to be on another island in the chain. There is an extreme variation in green fees, be sure to verify what currency they quote while you make your tee time.

Following is a list of islands starting at the bottom of the archipelago; that being Aruba! This information was acquired from the caribbeangolf.com site, so be sure to inquire if it is correct as it is only as reliable as the provider.
